

THE GOVERNOR'S ACADEMY

Newbury, MA
PJC customer since 2006

"Our organic program has been fantastic. Grubs have never been a factor at The Governor's Academy. The few that we encountered were on the fields that don't have irrigation and have been minimal over the

the last 15 years. We receive many compliments on the way our fields look in the extreme heat of the summer, as well as, in November when the season is winding down. The turf stands up to games, practices and all the other functions that are held on the 450 acres that we maintain."

-Matt McDonnell, former Grounds & Landscape Supervisor at the Governor's Academy

ARDSLEY HIGH SCHOOL

Ardsley, NY
PJC customer since 2006
Product inputs decreased in a 3-5 year period.

STAMFORD, CT
